SLS Trucking is a division of SLS Group

WELCOME TO SLS TRUCKING

Thank you for choosing SLS Trucking to shop for your truck accessories. SLS has over ten years of experience in delivering high quality products and services to the Australian trucking industry, offering both DIY kits and full customisation work in our Maitland, NSW workshop. We take pride in delivering passion, precision and perfection in every aspect of our work and that commitment has created many customers for life. We look forward to welcoming you as one of those valued customers.

Thank you for your business,

The SLS Team!

PASSION ~ PRECISION ~ PERFECTION

Exceeding Expectations Since 2003

VORTOX AIR TECH

VORTOX AIR TECHNOLOGY, INC.

SLS is a proud distributor of Vortox Air Technology products.

In 1922, Vortox built the first oil bath air cleaner for a tractor engine and have since helped establish the basic specifications of all air filtration devices being used throughout the world on automotive, industrial, agricultural and military applications.

Vortox produces a complete line of oil bath and dry type air cleaners with capacity ratings of 45 to 1800 CFM and ranging from 4 1/2" to 18" diameter.

Talk to the team at SLS for all your air filter needs.

Nine Unique Tops

AKK

AIR KOOL TOP STACKS

Our competition claims their stacks don't discolour, but discolouration from heat alone isn't the issue. DPF filled exhaust temperatures are typically 40% higher than a standard system and produce acid and condensation that must come out the tailpipe. At Dynaflex, because we understand modern diesel exhaust technologies, we realised the need for stack systems that would do more than just take high temperatures. The result was the brand new patented Air Kooled Stacks! AK Stacks not only solve the issues associated with added temperatures, but also address heat shield laws and DPF acid output. This unique design reduces backpressure and eliminates heat transfer onto the chrome pipe.

Cooler Exhaust

FEATURES

- Reduced backpressure
- Improved flow
- Reduced surface temperatures
- Patented design
- Improved materials

BENEFITS

- Improved fuel economy
- Cost reduction
- Longer lasting chrome
- Easier to clean, no chemicals
- No additional heat shields
- Reduced corrosion

ONE STOP TRUCK SHOP

SLS Trucking is here to help you make your new truck uniquely your own. Whether you have just bought a rig off the factory floor or a second hand truck that has travelled the road; Whether it's your first truck or the tenth in your fleet; It's the finer details and accessories, the ones that you choose to add, that make your truck your own.

And that's our expertise! At our Maitland, NSW workshop, SLS Trucking will transform the truck you have into the truck you want. Once we take delivery of your vehicle we will see the process through every step of the way. From manufacturing and fitting your premium accessories, to working with our partners to get your truck painted and signwritten, SLS Trucking is your one stop truck shop. With a complete wash and detail your truck will leave our workshop looking like it's just rolled off the showroom floor.

With over ten years in the industry, you can be confident that at SLS your truck is in great hands.

TESTIMONIALS

"Ten years ago, SLS Trucking accessorised my first truck. Since then, every truck we have added to our fleet has gone through the SLS workshop.

SLS has manufactured innovative products, showing us design concepts which now complement our gear perfectly, many times providing a solution to some ambitious requests.

Their level of service and commitment is second to none and Steve's attention to detail, along with his perfectionist qualities are evident within the result."

TESTIMONIALS

"My company, Compas Transport, has been operating now for over 11 years. We pride ourselves on being honest, reliable and having the expertise to provide our customers with the best service and quality we possibly can, and in turn I expect nothing less.

I first came to SLS in 2007 with my K104B and have continued to return with a range of different models from my fleet of 9. I have been extremely happy with the finished product on all of the trucks that I have taken to SLS for fit outs. I can honestly say theirs are the best quality accessories around.

I have no trouble in recommending their product and service to anyone.

Keep up the great job."

*- Colin Pasquali, Owner,

TESTIMONIALS

"I have dealt with Steve at SLS for the last 8 years and find him and his friendly staff to be very professional and obliging in all my dealings with them.

Their workmanship is exceptional with Steve overseeing all work done to make sure it meets his perfectionist standards prior to leaving his workshop. Having many of SLS custom accessories fitted 7 years ago to my KW T904 I have not had any problems with the quality of the materials or workmanship done.

I have travelled on plenty of rough Central Queensland roads from the roughest of roads the Gulf country of far north Old can offer on road train work, and pounding western NSW roads on harvest work with more dirt which Steve would be horrified with. Due to the daily abuse from the constant corrugations I broke a mudguard bracket. Steve was quick to come up with a new design which I'm more than happy with which is lasting well.

I have had no problem with any other accessories fitted including bolts coming loose. Their products have increased the value of my truck and with a bit of care still looks like new.

SLS work is second to none and I have no problem recommending their products or workmanship."

*- Peter Whytcross,
Peter Whytcross Transport,
JIMBOOMBA, Queensland*

TESTIMONIALS

"Kenworth trucks are regarded as the premium manufacturer of heavy vehicles in Australia and our supplier's products need to reflect this. Our customers often spend considerable time with Steve to plan exactly what will be done with their truck while it is at SLS. The quality of Steve's workmanship and products ensures that we have no issues with come backs which we consider to be super important. I wouldn't hesitate in recommending the services of SLS to anyone serious about customising a heavy vehicle that they can be proud of for years to come."

TESTIMONIALS

The professional, helpful and dedicated staff members of SLS ensure that the needs of the customer are always the focus. They start by liaising and assessing the needs and likes of the customer and continue with constant consultation throughout the process. The first-rate skills of SLS in customer relations have helped ensure complete satisfaction of my customers.

The exceptional and superior products produced by SLS provides additional strength to all their work. Mirror trims, sun visors and all SLS truck products are long lasting and have proven to maintain the new truck appearance longer than the competition.

This incomparable product, teamed with the outstanding expertise and workmanship of SLS, is the reason that my customers continue to give their business to SLS. Several customers have tried to have their needs met through other suppliers but have returned to SLS because they were unsatisfied with the service and product of these competitors. I believe this is due to Steve and his teams desire to provide a high quality product and their aspiration to perfection.

I have encouraged and promoted SLS over the last five years and will continue to do so because I firmly believe that this company is an unparelled leader in their field. SLS can truly be linked to precision, perfection and distinctive solutions for the transport industry.

WARRANTY POLICY

SLS Custom Stainless Pty Ltd (from here on known as "SLS") prides itself on its excellent reputation for the quality of its products and services.

SLS warrants that all of its products (used for their intended purpose) will be free from defect in materials and workmanship for a period of 12 months from the date of purchase.

Apart from any warranties implied by the Trade Practices Act 1974 and/or Part 6 of the Sale of Goods Act (NSW) all other warranties expressed or implied and howsoever arising.

If any product proves to be defective in such time, SLS, at our discrepancy, will:

- 1) Repair the defective product,
- 2) Replace the defective product, once returned, or
- 3) Refund the amount paid for the product (not including any freight that may have been paid when purchased), once returned.

It is the customer's responsibility to report any evidence of defect in the product or workmanship immediately. This may be done by contacting us via mail, phone, fax or email. A remedy will be received in a maximum of 4 weeks.

Any warranty will be void if:

- 1) Failure of the product occurs from continued use after the customer knows, or has reason to believe that the product is defective.
- 2) The product has not been properly maintained or has been modified.
- 3) The product has not been fitted according to proper instructions.
- 4) The product is defective arising from negligence, abnormal use or abuse.

Important Notice to Purchaser

The following is made in lieu of all warranties, expressed or implied. Seller's and manufacturer's only obligation shall be to replace such quality of the product provided to be defective. Neither the seller nor manufacturer shall be liable for any injury, loss or damage, direct, indirect or consequential arising out of the inability to use the product.

This warranty does not cover:

- 1) Normal wear and tear.
- 2) Failure or damage caused by improper use or improper or inadequate maintenance and care.
- 3) Any incidental or resultant loss.
- 4) Any downtime expenses incurred by the customer.

If the customer simply changes their mind and no longer requires the product, there will be a 20% restocking fee on all standard products with return freight to be paid for by the customer. No returns will be accepted if the customer has attempted to use or fit a product or if the protective plastic coating has been removed.

There are no returns on "one off" or customised products.

Proof of purchase is required for all warranty claims and returns.
